PIONLY
MAGAZINE

Dear

Thank you for submitting your writing. While it was an interesting read, I regret to inform you that your "Master Yoda Fanfic (NSFW)" does not quite fit in with our magazine. While I thank you for your time, we simply cannot publish phrases such as "Yoda stares at me with his wrinkled eyes... I see them travel down my robe... 'Lightsaber that is or happy to see me you are?'" In our publication. Further, as a respected magazine, we usually do not accept submissions without any punctuation that are just one run on sentence. We look forward to any more submissions you might send.

Thank you again for your time,

Fiction Editor,

The New Yorker

Hello readers, and welcome to this week's issue of maturity corner, the article where I read a random story on fanfiction.net and critique a chapter of it beyond what is normal or healthy. This issue we're analyzing "Hogwarts School of Prayer and Miracles," a completely unintentionally hilarious rendition of the Harry Potter novels written by a middle aged woman probably named Karen because "My little ones have been asking to read the Harry Potter books; and of course I'm happy for them to be reading; but I don't want them turning into witches!" And yes, that is a direct quote from the author's note. It should also be added that the author's screen name is "proudhousewife" and that she believes that she can accurately summarize a 300 page book into 14 chapters *well* on a fanfiction website. Who is this lady? Who let her on the internet? Who let her onto fanfiction.net???? In 2014???

To begin this analysis, I would like to describe the immense discomfort I feel while reading this. The words “daddy” and “mommy” are in it at least five times a chapter, which is... fucking weird. Maybe the author was attempting to create some sexual tension? The only thing more uncomfortable than the overuse of “daddy,” however, is the fact that Hagrid just SHOWS UP and asks if young Harry has been “saved.” Now, I’m not sure if you’re familiar with the source material, but Hagrid literally HUNTS THE DURSLEYS DOWN in the originals and just FUCKING DESTROYS THE HOUSE THEY’RE RENTING. So having him politely knocking on the door like an eight foot tall Mormon missionary is a bit *too* on the nose. Also you cannot convince me that having our favorite animal lover denying evolution is okay. Stray from the canon all you want, Hagrid believes Darwin.

To conclude, I leave you with this final piece half way through the first chapter: “Sometimes, the wisdom of little ones is really amazing. We think we grownups know it all; but then God speaks through the mouths of little ones; and shows us how we are all mortals struggling along the path of

Everyone's heard that Fifty Shades of Grey is just Twilight fanfiction, right? I bet you haven't heard of some better-kept fanfiction secrets, though. Jaws? Originally some guy's vore fanfic. Someone wrote some dirty, dirty Yoda (Star Wars Original Trilogy) x Gizmo (Gremlins, 1984) smut and came up with the concept for Furbies.

You heard me right, your beloved childhood toy is the lovechild of your reptilian father figure and one of those psycho little shits. Feeling sick to your stomach from imagining Yoda taking that Gremlin cock up the ass? Well, nothing is sacred, get used to it. Little Red Riding Hood? Yeah, more vore fanfiction. Bigfoot was just some guy in the Pacific Northwest's cosplay of the Beast from Beauty and the Beast! His wife was just really into his animalistic side. It's not weird, Emma Watson agrees. Jane Eyre was just Charlotte Brontë's self-insert finding a rich stranger to dick her down. Can't blame her, isn't that what we all want??

Obviously, The Divine Comedy was just Dante's imagine he wrote with himself, Virgil, and the girl he liked thrown in there for good measure. How is The Divine Comedy different than a 12-year-old's Wattpad One Direction imagine? That's right, Y/N, it fucking isn't. You think the BIBLE is a completely original work, written by God?? PLEASE, eating the body of Christ? VORE. Did I go too far?Too fucking bad, I don't give a damn, I'm here to expose the two eternal truths in life. ALL ART IS DERIVATIVE. AND.....

my immortal

Hi my name is Ebony Dark'ness Dementia Raven Way and I have long ebony black hair (that's how I got my name) with purple streaks and red tips that reaches my mid-back and icy blue eyes I like limpid tears and a lot of people tell me I look like Amy Lee (AN: if u don't know who she is get da hell out of here!). I'm not related to Gerard Way but I wish I was because he's a major fucking hottie. I'm a vampire but my teeth are straight and white. I have pale white skin. I'm also a witch, and I go to a magic school called Hogwarts in England where I'm in the seventh year (I'm seventeen). I'm a goth (in case you couldn't tell) and I wear mostly black. I love Hot Topic and I buy all my clothes from there. For example today I was wearing a black corset with matching lace around it and a black leather miniskirt, pink fishnets and black combat boots. I was wearing black lipstick, white foundation, black eyeliner and red eye shadow. I was walking outside Hogwarts. It was snowing and raining so there was no sun, which I was very happy about. A lot of preps stared at me. I put up my middle finger at them.

big boink theory

We all know and love the Big Bang Theory. It's hilarious, it's whimsical, it's sexy. And honestly I *would* write a Big Bang Theory fanfiction, but the show is already scorchin' hot. If I thought I could do it justice, everyone in the BBTCU would have fucked each other by now. But alas, I can't write fanfiction as hot as the original show. Instead I will walk you through the hottest moments.

1. The undying tension between Sheldon and Leonard's mom. On one hand we have the master of comedy Jim Parsons, whose portrayal of Sheldon might be the sexiest thing to touch gods green earth, and on the other hand we have Christine Baranski, sex symbol. If I'm counting correctly that is two hands full of sexual passion.
2. When Leonard fucks that older rich lady (Jessica Walter) to get... money? A science project approved? I don't fucking remember, but it was fucking HOT. Sex sex sex
3. To my knowledge, those are the only two sexual moments in the Big Bang Theory. I don't think there were any other characters who even had sex during the 1000 year run or whatever

Tune in next week to discuss how The Big Bang Theory is sexy, like super hot.

Fan Fiction

"I just want to be normal," Susan said. "Just for once."

Kyle rolled his eyes. "Talking is boring. Let's have sex."

"I don't know..."

"Come on," Susan's dad interrupted. "It's your dream!"

Susan sighed. "It's not my dream, dad. It's yours."

"Please go away," Kyle said.

Susan's dad sighed and left the room.

"You are such a sexy sentient ceiling fan," Kyle said.

"You are wrong. I am an ugly sentient ceiling fan."

The doorbell rang.

Susan answered it.

"Hi," said the pizza man.

"I love you," Susan said.

"Don't do that," Kyle said angrily. Kyle punched the pizza man.

The pizza man was angry. "Don't do that!"

Kyle was annoyed. "I am a mysterious and sad boy."

"So am I," said the pizza man.

"I love you," Kyle said.

The pizza man put Kyle in his pizza box and left.

Susan's dad came back. "It's time to learn the secret."

"Okay."

"You are not an ordinary sentient ceiling fan."

"I do not understand."

"You are the long lost princess of Fanland."

"No way."

"The pizza man wants to kill us. You must defend Fanland."

The pizza man threw a grenade. The grenade broke the window. The grinch hit Susan's dad.

"Susan, you are the chosen one," Susan's dad said and then died.

"Oh no, this sucks." Susan knocked the pizza man over.

"I killed Kyle. I killed your dad. You are an orphan. Now I will kill you," said the pizza man.

Harry Styles shot the pizza man to death.

Susan gasped. "Harry Styles, are you here to adopt me?"

"No, now you must return to your kingdom," said Harry Styles.

"Oh well, I guess I will do that."

my fanfiction about mr. fan

Opinion: Fans and why I love my fans

I have a fan and his name is Mr.Whirl-a-Bunch. We like to hang out together sometimes, but sometimes I have to do homework or I hang out with other friends. He is a fan and he is powered by electricity but I also like to say he is powered by love even though this is not really true but I wish it were. He has blades but they are not knives and less dangerous. They are big and flat and when they whirl he blows air. The blades are not knives but if you run into one it still might hurt a bit so do not say "these are not knives!" and get hurt all willy-nilly. The air he blows out also does not hurt and it feels really nice in the summer.

Now you may be asking yourself, well, he blows nice air on you, what do you do for him in return? In a way I feel I have already answered this question and that you could have paid better attention. But that's okay I have a lot of free time. I put googly eyes on him so he can see and I give him hugs so he can understand love. Some may say that it is dangerous to teach a robot about love and eyesight? I do not think so because if he is living around us and we do not teach him to love he may become sad. But also it is just nice. He is a good friend and I think everyone should be friends with their fans. I know that when you hear that they are electric and have blades it sounds scary but there are not scary they are nice.

Definitely_Not_Ray_Romano_69:

Imagine, you're at a hollywood party your friend dragged you to but she has left for some guy as per usual. You awkwardly stand in the corner and keep checking your phone seeing if you anyone would notice if you ducked out the back door and left. In a last hope to find something to kill the time, you look up only to be met by the most beautiful eyes you've ever seen. You start looking at the person who's connected to the eyes and it's him. It's Ray Romano.

He smiles and starts hesitantly walking towards you. As he comes closer, you are able to see his more defined features. He has wrinkles between his eyebrows from years of giving his absolute all in movies like Ice Age, Paddleton, The Big Sick, and Ice Age 2: the meltdown. As you scan down his body you notice that he has sort of a gut, but it's kind of cute. And even if you didn't find it cute it shouldn't matter because he's been trying to eat healthy for like the past month but sometimes it feels like no matter how many kale salads he eats, the metabolism of a sixty year old man just can't keep up.

He comes closer and you remember the rumors you heard that he writes fanfiction about himself, but then you remind yourself that those rumors are complete bullshit and the people who made them are up are just jealous about him and the success of his hit tv show Everybody Loves Raymond. And even if he did write fanfiction about himself it would only be to connect with younger kids because he played one goddamn mammoth and suddenly that's all people know him from but have you seen fucking Paddleton?? That shit would change your fucking life if you gave it a shot but instead you're just reading Ray Romano fanfiction like a complete loser.

Please watch Paddleton

As you all know, Dr. Who is a total DILF (Doctor I'd like to Fuck). I know it, you know it. Matt Smith is the type of guy who wouldn't treat me right. The kind of guy who looks like he's *always* a little sick and I have to take care of him ;). I just want to eat sushi off his massive forehead. But last year at the convention's pasta bar, we all agreed only one of us can be with him, so I've ranked some of the most popular users here by how much they want to suck Matt's sonic screwdriver.

3. Jacobssaggytitties

Some Twilight fan didn't get the memo that pasty white boys are IN (Team Edward. Obviously). But Matt Smith's titties deserve as much love as his eyes, so partial credit.

2. W33P1NG_angelx

Clearly a Whovian, but def prefers David Tennat, who looks like a ferret man. Plus they ship TARDoctor, which is weird AF.

1. Loveclara32

Obviously I'm the winner. My 13,000 alt-fic about the Doctor and Claire's baby was retweeted by Matt Smith's assistant's friend, so he definitely knows WE'RE MEANT TO BE. Listen, I've seen every season a million times, and in Season 2, Episode 7, the Doctor said Clara's name 32 times, just like my username. That's a sign from God, ok? When I sent Matt Smith fan mail in 2015, do you think I gave up when his assistant replied, "Please stop contacting Mr. Smith?" No, I picked myself up, dried my tears, and went to the set of Paramount Pictures' *Terminator: Genisys*, lied about my resume, and worked for 3 weeks in craft services so I could get a glimpse of his favorite snack, yogurt dipped pretzels. So I swear, all of you posers better back back the fuck off or I will deadass drive my 2009 Ford Fusion into your house and beat you to death with a lanyard full of collector's pins.

One Direction Imagines That Will Make You Resent Your Husband Peter

1. Imagine you're in the hospital room, which has Union Jack-patterned curtains and One Direction posters all over the walls. You squeeze your husband Zayn Malik's hand while you push out his baby. Tears stream down both of your faces and you gaze into his eyes as you give birth. "You're so beautiful babe," he says, and you can tell he means it because he's crying. "You've never been more beautiful than you are right now." Right as you squeeze out your child, which you'll name Zayn Jr. if it's a boy and [Y/N] Jr. if it's a girl, you remember that Zayn isn't your husband, your real husband's name is Peter and when you have birth to your real son, Mayson, he patted you on the shoulder and repeatedly said "you got this" for 5 minutes before exiting the room and vomiting on a passing nurse, who he would later marry after your \$40,000 divorce 2 months later.

1. Imagine you're walking through the cold crisp December air with your boyfriend, Louis Tomlinson. He sees you shivering in your baby blue cropped sweater and skinny jeans, rubbing your arms with your hands where your nails are painted in the shade Sally Hansen Party Dress Pink. "Are you cold babe?" he asks worriedly. "No I'm ok," you say. "Come on babe," says Louis, so worried he starts crying. "I don't want my girl to get sick." He puts his big black coat around your shoulders and gives you a kiss on the top of your brown hair. But you don't smile, because you remember you're not dating Louis, you're married to Peter, a 47-year-old financial manager at RadioShack.

2. Imagine that after a long day of runway modeling, you walk into your cozy London flat to the smell of something delicious cooking on the stove. "Babe?" You call out, and before you can say anything else, your husband, Harry Styles, peeks out from the kitchen wearing a really sexy apron. "I made chicken masala... dairy-free," Harry murmurs seductively. "Babe! You remembered I can't digest lactose without shitting my brains out." Harry is so happy you liked his meal that he starts crying. You smile, before you remember you're not married to Harry Styles, you're married to Peter, your husband of eight years who's on his second marriage, third midlife crisis, and 287th time making a single burnt quesadilla for dinner.

stress relief

Life is hard sometimes and we all have our coping mechanisms, which is totally okay. If you need to squeeze a stress ball in traffic, great. If you listen to heavy metal before doctors appointments because it calms you, love that. If you sometimes lock yourself in the closet and cry while holding your high school yearbook because you'll never get back the time you wasted trying to create a "good" life but actually you're miserable and just want to set your house on fire, yes queen.

I'm a little different.

Sometimes, when times get tough, I picture Abraham Lincoln in retirement. I don't really know why. It just, I don't know, makes me happy. He did so much for the country, like reforming tax policy, and it just seems unfair that he went out the way he did. So sometimes I like to think about Lincoln on a farm, not too big but not too small, in his home state of Illinois. It's by a river and he likes to sit on the porch and watch the sunset over the water. His son's family visits every holiday and his grandkids call him Pop-pop Abey. He has lots of black friends. He lives a simple life, a good life, and Mary Todd never asks him to go to the theater. They don't talk about why, they just don't. And they are happy. It's silly, I know, but it always makes me feel better. But what can I say? I'm a sucker for white saviors.
